Controls Manager

207-321-5887 // dkosalski@whdemmons.com

EXPERTISE

Engineering and design of HVAC and plumbing systems used in commercial, industrial, manu-facturing, municipal, and institutional build-ings. Comfort heating and cooling applications, indoor air quality, laboratory design, process cooling, dry rooms, and humidity control. Known for energy efficient, state of the art HVAC systems, including geothermal, air to air energy recovery, radiant floor heating, air rotation, high efficient condensing boilers, compensating hoods, and DDC controls.

EXPERTISE

- // Design, Program, Install, Commission, Start-up, and Service of Building Automation and Controls used in industrial, commercial and large scale residential applications.
- // Engineer and design custom graphics and schematics for end users.
- // Manage multiple large scale controls and electrical projects.

- // Facilitate the installation of electrical and controls systems.

EXPERIENCE

Almost 20 years in the electrical and controls industry, including 9 years as an electrical contractor in Maine and Arizona.

SPECIAL PROJECTS

- // Albany Engineered Composites Process Cooling Controls – Rochester N.H.
- // Albany Engineered Composites Building HVAC Controls – Rochester N.H.

- // Albany Engineered Composites
Process Cooling Controls –
Commercy, France
- // Wellness Connection
Dehumidification Controls –
Auburn, ME
- // Eli Lilly and Company Building
HVAC Controls – Winslow, ME
- // Hinckley Yachts Hull Curing Oven –
Trenton, ME

ADDITIONAL TRAINING AND EDUCATION

- // NJATC - Graduated in the top 5% of
the class while working full time.
- // 5-year apprenticeship with IBEW

LICENSES AND QUALIFICATIONS

- // Master Electrician (Licensed in the
state of Maine and New Hampshire)
- // Reliable Controls Authorized Dealer
Certified Level 3
- // NFPA-70E Qualified
- // EPA Universal Refrigerant
Certification
- // OSHA 10 Certification
- // CPR and First Aid Certification
- // Signal and Riggers Certification
